Civil Rights Audit

- Areas where campus awareness and help is needed:
  - Accessibility
    - Accessible aisles maintained at all times: Minimum 36” width.  If turn around space is needed, allow 60” x 60” clearance.
    - Accessible furniture in accessible locations: Accessible seating needs to be near entrance of room.
    - Furniture, that students use or interact with, must meet ADA requirements
  - Student information & brochures at an accessible height
    - Information available above 48” – 54” must also be available below 48” – 54” and in same vicinity.

Accessible aisles maintained at all times.

- All access pathways - 36” wide
- Must include a 60” x 60” turn around space where turning around is needed.
Accessible furniture needs to be near the entrance of the room for easy access.

• Furniture, students use or interact with, must meet ADA requirements
  
  – If service or sales counters must have an accessible portion. Where counters are dispersed throughout the building, accessible counters must also be dispersed.
  
  – Service counters which allow for a parallel approach must have a portion at least 36” wide and have a maximum height of 36 inches above the floor.

• Note: Counters that allow a forward approach must provide a surface which is at least 30 inches in length, at a height not greater than 36 inches, and provide adequate knee and toe clearance underneath.

• Note: When it is not possible to provide an accessible service counter, an auxiliary counter or table available in close proximity that meets the above requirements is required.
Information and brochure posting:
*** Anything available to students above 48”-54” must also be available below 48”-54”.

A few of the possible options?
